

COUNCIL RATIFIES MONTHLY PAY ROLL

City Solons Clean Up Business
Because Many Will Go
to Reno.

GRANT TAX ABATEMENTS

GIVE PERMISSION FOR WEATH-
ER BUREAU KIOSK.

Realizing that there would be no meeting of the Salt Lake city council next week unless some provision could be made for transacting the business of Salt Lake at Reno, Nev., the council cleaned up its slate at a special meeting yesterday. There were really two meetings, the first being called at 11:15 o'clock yesterday morning for the passage of the monthly pay-rolls and the second being called at 11:17 for "consideration of partial estimates and such other business as might come before the meeting."

The monthly pay-rolls amounted to \$23,746.12, and they went through under suspension of the rules. The partial estimates of contractors for paving, sewer, water main and sidewalk work amounting to nearly \$90,000 were approved. The final estimate going to the finance committee for checking.

Then the council took up routine business. The Utah Light & Railway company sent a communication accepting the offer of the council to vacate Eleventh West street, between Salt Lake Route and Oregon Street. The line tracks if the company would furnish free power for the operation of the elevator on the city side of the joint building. This was referred to the committee on municipal laws and the city attorney to draw up a proper contract. J. J. Hanley's contract for sewer extension No. 267 was approved by request. This extension is known as "Sandy Fowler's sewer," in Second North street, from Quince to Center street, and the work will be done immediately.

Grant Tax Abatements.

The application for a spur track franchise for the Oregon Short Line to the plant of the Farmer's Grain & Milling company, owned by J. J. Hanley, who said that it was apparent that the railroad wanted to build a sidetrack in front of the plant for the storage of cars, rather than a spur track as requested in the application.

Five petitions for abatement of sewer taxes from residents on Capitol hill were granted on the advice of the city attorney. The city was below the grade of the sewer, and the city had no right to charge for improvements which would be used by the taxpayers. It was understood, however, that the property owners are to get rights of way to connect their back yards to other streets, and when these connections are made the taxes will be collected.

The petition of the United States weather bureau for permission to erect a kiosk for the housing of weather instruments where they could be seen by the public was granted. The kiosk will be located at the corner of Postoffice place and Main street. Several members of the council obscure the instruments in the obscure corner of the city and county building grounds, but the government officials insisted that the kiosk be placed where it could be seen by pedestrians.

The petition of the Continental Wireless Telegraph company for permission to construct antennae from the Dooly block to the block on the north was granted. The city stipulated that the work should be under the supervision of the city engineer as to safety.

The council authorized another electric light to be placed in Liberty park near the lake, this action being taken on request of the board of park commissioners. The city stipulated that the house commercial club for 500 feet of fire hose was also granted, and the city will furnish a reel to be cared for by the club.

F. J. Bartels, an expressman who charged \$2.50 for hauling a load of kindling two blocks, will get no license as an expressman, but the time he applied, according to the decision of the council.

A report was received by the council to the effect that housecleaning in the building had been half completed and the appropriation was exhausted. This was referred to the committee on estimates and appropriation, with a request for an immediate consideration.

NEW OIL FIELD BEING DEVELOPED RAPIDLY

California oil experts and others have been attracted to the San Rafael country, over the Cedar range from Emery, Emery county, according to W. L. Miller, special agent of the government land office, who returned from there yesterday. The experts believe that from the nature of the soil there are rich oil deposits, and two rigs have already been put into place to begin digging for the fluid. Mr. Miller expects word in a few days that the oil has been struck and that one of the greatest oil fields of the west has been opened.

DISTRIBUTES DIRECTORY.

Independent Telephone Co. Institutes
General Party Line.

The Utah Independent Telephone company is distributing its new directory. A general party line service is a departure for the company, but the change has been in progress for the past few weeks.

July First Re-Investments

The first of July is the time when many people receive the semi-annual interest on their investments and in fact when a large number obtain the principal itself on securities. The money thus received should not remain idle, but should be immediately deposited at interest. Our certificates of deposit bear 6 per cent and afford unquestioned security.

SUMMER SCHOOLS BETTER THAN EVER

More Persons In Attendance
and Instruction Excels
Any Heretofore.

32 STATES REPRESENTED

STUDENTS COME FROM MANY
DIFFERENT LOCALITIES.

The first half of the current session of the university summer school ended Saturday, and at that time the school had reached a higher plane in point of numbers and general efficiency than ever before in its history. The registration, 975 students, exceeded that of last year by more than 150. The enrollment of 1909 was considerably larger than that of previous years.

The present registration places the Utah institution among the largest summer schools in the United States and those which surpass it are chiefly not schools attached to standard colleges, but Chautauques and other pleasure resort auxiliaries.

Thirty-two states of the Union are represented on the rolls of the school, and a number of students enrolled come from various parts of Mexico and Canada. At least one foreign country, Japan, has a representative. He is Y. Baba, who came directly from Nippon to Utah for his scholastic training. Among the students are many school officials and instructors, a number of them representing colleges, secondary, and grammar schools in Chicago, Minneapolis, St. Louis and other important cities.

That the Utah school ranks high, both in the extensiveness of its work, and the general efficiency of its work, is the testimony of these visitors. In many respects, they affirm, the institution has no superior, and future seasons will see a greater influx of students from the east and middle west.

Takes Place of Examination.

With the co-operation of the state board of education, the summer school provides courses of study which enable the school teachers of Utah to enter upon their work without special examination. Largely because of this fact, the department of education holds a conspicuous place. Under the direction of Dr. Richard G. Boone and other experts, this department is caring for the training of several hundred of teachers who will next year hold positions in the state schools, high schools and grammar grades of the state. The department of physical education, under the direction of Dr. William G. Anderson of Yale, Jakob Bolin of New York and others, is larger and more efficient than ever before. Among the students are many athletic coaches and instructors of gymnastics.

In the scholastic branches as well as in the professional courses, the work of instruction is progressing. Students of modern languages are required to read their whole attention on one particular language in order that definite progress can be made in the short summer term.

Students of the physical sciences spend the entire day in lecture room and laboratory of the course in which they are studying. The officials of the school and leading educators of the state who are in touch with the institution are enthusiastic over its present condition and its prospects.

Professor P. W. Reynolds, secretary of the committee, is acting executive of the school. Chairman William M. Stewart, who has been incapacitated for work by illness, is now convalescing at his ranch on the Provo divide.

Several members of the faculty and many students have gone into the country or the mountains to enjoy the Independence day recess. Farm and canyon resort parties are numerous. Among those who will spend the holiday at Brighton are Dr. J. M. Smith, Simon and daughter in Duluth, Minn., where they have been visiting relatives. Before going abroad Mr. Simon will spend some time in New York purchasing fall stock. While in Europe they will visit the most famous cities in England, Germany, France and Italy. While abroad Mr. Simon will spend much time in looking after the import purchases for his store.

SIMONS GO TO EUROPE

General Manager of Paris Millinery Company Will Take Family on Tour of Continent.

Louis Simon, general manager of the Paris Millinery company, and one of the members of the L. & A. Simon company, wholesale millinery, will leave July 6 for an extended trip through Europe with his wife and daughter Irene. He will join his wife, Simon and daughter in Duluth, Minn., where they have been visiting relatives. Before going abroad Mr. Simon will spend some time in New York purchasing fall stock. While in Europe they will visit the most famous cities in England, Germany, France and Italy. While abroad Mr. Simon will spend much time in looking after the import purchases for his store.

RACING AT WANDAMERE.

Other Attractions During Week Will Draw Crowds.

Motorcycle racing Monday, Wednesday and Saturday nights will be the chief features of the Wandamere this week. Wednesday and Saturday are the usual days of the week for the races at the new "pie pan" track, which opened last night, but races will be held Monday, of course, as a part of the Independence day celebration. Other features of the week will be the day devoted to the Pioneer Stake Relief society and primaries, Thursday. German day is on Friday. Numerous private parties are planned, and Wandamere is proving its claim to popularity by the ever increasing crowds that go there to find a quiet, beautiful spot, where they may rest and enjoy the pleasant surroundings.

TALK TO PARENTS ABOUT "INDEPENDENCE DAY"

"Independence Day" will be the theme discussed before the parents' classes in Ensign stake this morning at 10 o'clock. The speakers have been named as follows: Twentieth ward, Judge O. W. Powers; Twenty-first ward, W. W. Ritter; Twenty-seventh ward, P. C. Evans; Eleventh ward, Judge Alex. McMaster; Twelfth-Thirteenth ward, Nephi U. Jensen; Eighteenth ward, W. E. Rydalen.

FREE TRIPS TO SALT LAKE

ALTAIR is certainly a pleasant place at this season of the year. The cooling breeze is worth the journey to the lake at any time, and when to this is added the bathing and other amusements, the combination forms the greatest resort in this western country.

Realizing this, The Herald-Republican is giving each of its regular subscribers a free trip to Salt Lake each week this season. Each week during the season, in a regular issue of The Herald-Republican, is published a coupon which carries the bearer to Salt Lake, admits him to the resort, and brings him home. There are no restrictions to it, except that it is printed only in the papers that are delivered to regular subscribers. Papers sold on the street, on trains or at news stands do not contain the coupon.

So far this season Herald-Republican day each week at Salt Lake has been the big day of the week. Now is the time to subscribe, for in addition to getting the greatest and best newspaper in the intermountain region, you get a free trip to Salt Lake each week.

FRANK E. HOLMAN WINS MORE HONORS

Utahn Who Holds Rhodes
Scholarship Again Distin-
guishes Himself.

Word was received from Oxford, England, yesterday that Frank E. Holman, one of the Utah scholars who holds a Rhodes scholarship, had secured second mention in his class in jurisprudence. Holman has the honor of completing the three years of assigned work in two years. The other year which is still due him of the scholarship money must be spent in Europe, and Holman is planning an extensive tour.

Holman was graduated from the University of Utah with a degree of bachelor of arts in 1908. The same year he received the appointment to Oxford and took up his work there in October of the same year. While he has been at Oxford he has won several honors in his class, and on two separate occasions he has been elected orator at the annual celebrations of American holidays.

With the completion of his work he will travel in Europe for one year. He will be met in London by George Hedger, instructor of English at the University of Utah, and Mark Brown, a graduate from the University of Utah, and now a student at the Columbia medical school. The three will travel in Europe together.

At the end of the year Mr. Holman will return to Utah and take up the practice of law.

Advices from Oxford are that F. D. Metzger of Washington state took first-class honors in school jurisprudence; E. D. Griffith of California, Mr. Holman of Utah and W. T. Stockton of Florida took second honors, and R. E. Blake of Tennessee and S. H. Blalock of Washington, third. R. F. Burgess of Rhode Island took third-class honors in school mathematics.

ANGLERS KILL BIRDS JUST FOR FUN OF IT

Oruel Practices Against the Law and
Warden Chambers Intends to
Prosecute Offenders.

Reports have been reaching the office of Fred W. Chambers, state fish and game commissioner, from Morgan and Summit counties, that the fishing parties going to the fishing spots in these two counties from Salt Lake, Utah and Davis counties are killing everything in the way of game along their route.

"The letters which I have received," said Warden Chambers, "contain accounts of the ruthless slaughter of birds which the true sportsman would not countenance."

"The wardens in these counties state that as they go along their route they find mourning doves, robins, and all sorts of insectivorous birds hung to the barbed wire fences. In many cases we have found where whole coveys of young quail have been used as targets. These fellows seem to have an insane desire to kill everything along their route."

"I have appointed several new deputies who will ride along these routes today, tomorrow and Tuesday. This thing is going to be stopped, and the first man or the last one caught will get the limit of the law. I will only things which can now be killed legally are squirrels and jack rabbits. The fine for killing anything else is \$50 for the first offense."

Mr. Chambers also stated that reports were coming in from other districts of unlawful killing of birds.

ATTEMPTS SUICIDE AND WANTS TO TRY AGAIN

Edward Wilson, the produce peddler, who shot himself through the left lung early yesterday morning after a domestic quarrel with his wife at his home, 231 Glendale avenue, was reported yesterday at St. Mark's hospital last night. Wilson is apparently bent upon suicide. He told attending surgeons yesterday that he would make a second attempt when he recovered.

SELF-STYLED SEER HELD FOR THEFT

Ralph Wagener Unable to Con-
vince Patron That Spirits
Took Money.

Unable to convince Leo Paffery, a tourist, that spirits ran away with \$6 he placed between the leaves of a Bible while having his fortune told, Ralph Wagener, seer, fortune teller, lecturer on mysticism and half brother of Abe Major, the murderer, was arrested shortly before noon yesterday by Detective Earl Ripley on a charge of embezzlement.

The operation in which Paffery was relieved of the \$6 took place in Wagener's office at the Hotel 269 South Main street, which the seer has used as a headquarters for a series of lectures on a brand new kind of spiritualism and occult art. In his ambition to become a seer in the latest buncombe, Wagener is said to have become absolutely unscrupulous in his methods.

In scanning fortune teller signs in Salt Lake yesterday, Paffery became attracted by the shingle over Wagener's office. The tourist climbed up the stairs. Wagener looked at him and fell into a trance. When he woke from the trance he clapped his hands together and shouted to Paffery:

"Put all your money under that Bible, put your hands on the cover, shut your eyes and wish."

Paffery obeyed, and placed \$6.75 between the leaves of the good book. Wagener uttered incantations, mumblings, in which he pretended to be talking to spirits. Finally the mumbling ceased. There was another trance, and when Wagener woke he said that the wish had been granted.

The tourist started to find the money in the Bible, but could only locate 75 cents out of the amount he had placed under the covers. Wagener explained that the spirits had taken the \$6 as a pleasant wish. Rev. R. A. Lansdell, Paffery didn't believe that possibility, but Wagener said, "Honest, they did."

Complaining at police headquarters, the tourist obtained the service of Detective Ripley. While being locked up in the city jail Wagener pretended to be mute and would not give his name to the desk sergeant. Early last night Attorney Harry Robinson put up \$50 bail for the release of Wagener.

MRS. N. F. CROSSLAND IN CHARGE OF NURSES

Distinguished Hospital Worker Em-
ployed by Trustees of the Judge
Mercy Institution.

Mrs. N. F. Crossland, who has had charge of the nurses' school at the St. Mark's hospital and the L. D. S. hospital in the past few years, and who has recently been connected with the Protestant Episcopal hospital at Philadelphia, will assume control of the Judge Mercy hospital at once. Appointments for positions on the nursing staff will be able to see Mrs. Crossland at the hospital every day until 5 o'clock. The hospital will be opened for the public on August 15.

Mrs. Crossland is one of the best known hospital workers in the country. For several years she has been in charge of the nurses' school at St. Mark's hospital. During the summer of 1906 she left the St. Mark's hospital and took charge of the work at the L. D. S. hospital. She remained at the L. D. S. for one year, and left two years ago for the Protestant Episcopal hospital in Philadelphia, of which she was a graduate. She has the honor of being the only graduate nurse from that hospital to assume charge of the work.

The starting of a new hospital with all young and untrained nurses is such a task that the hospital authorities thought it advisable to secure the most competent person possible. From the time the student nurses are taken on until the hospital is finally opened to the public they will be instructed under the direction of Mrs. Crossland.

SOCIALISTS OBDU- RATE

Defy Park Commissioners' Orders and
Some Arrests May Take Place
at Mass Meeting.

A lively time is promised for this afternoon at Liberty park, when the Socialists of Salt Lake hold their mass meeting, against the wishes of the board of park commissioners, and it is likely that some arrests will be made. The meeting has been called and the program arranged, but the board of park commissioners has forbidden them to hold the meeting in Liberty park.

The socialists claim that "right of free speech," and claiming the park to be public grounds, attempt to hold the meeting in defiance of the wishes of the board of park commissioners.

William Thurston Brown, who recently resigned from the pulpit of the Unitarian church, will be the principal speaker, and has been called on "What the Socialists of Milwaukee Have Done to Fulfill Their Campaign Pledges." Murray E. King will speak on "The Battle for Lower Prices." William J. Kern will deliver an address on "Industrial Unionism," and George E. Watts will speak on "Organization."

The want ads can serve you only if you use them.

MINISTERS GOING AWAY FOR A REST

Salt Lake Clergymen to Take
Vacations During Heated
Term.

ONLY A FEW STAY HOME

MOST OF THE TRAVELERS WILL
GO TO PACIFIC.

During the heated term of July many clergymen of Salt Lake are preparing for their summer vacations. Some have left the city already, and many more will follow this week. California and the Pacific coast seems to be the favorite retreat for most of the ministers and their families, though some will spend their vacations in the east. Still others have planned to spend the summer in the surrounding canyons. Only a few will remain in Salt Lake all summer.

The Rev. Francis Burgette, left of the First Methodist church last Friday night for southern California. He will spend the coming month at Long Beach and San Jose, and during that time will take a cruise to the coast.

The Rev. Elmer I. Goshua of the First Congregational church will leave the early part of this week for the east, and has arranged to deliver a course of lectures during his trip. He goes from here to Chicago and thence to New York. He will then take an extended trip through the northwest, visiting friends in Washington state. He will be absent until September 1, during which time the church will be closed.

The Rev. P. A. Simpkin of the Phillips Presbyterian church leaves tonight for Santa Monica, where he will spend the summer, taking a complete rest. Mrs. Simpkin and their three children left Friday night for California. The Rev. Carl Beavie will supply the pulpit during the absence of Rev. Simpkin. Rev. Simpkin and family expect to return about September 1.

The Rev. E. Hays of the Third Presbyterian church delivers his last sermon in this city today. Wednesday he and his family will move to California, where he will locate. During the summer he will be stationed in Berkeley. It has not been decided who will take his place here.

Will Visit in Seattle.

The Rev. L. S. Bowerman of the Immanuel Baptist church and Mrs. Bowerman will leave July 14 for Washington state, where they will spend a vacation of one month. Much of their time will be spent in Seattle, where the Rev. Bowerman will supply the pulpit at the First Baptist church of Seattle. This is their former home, and they are looking forward to a pleasant visit. Rev. R. A. Lansdell will have charge here during the absence of Rev. Bowerman.

The Rev. Charles E. Perkins, rector of St. Paul's Episcopal church, and family will spend two months at Brighton. They will be accompanied by Miss Beatrice Burton. They will leave tomorrow morning.

The Rev. W. M. Paden of the First Presbyterian church will take a month's vacation, commencing the latter part of July, but has made no definite arrangements as to where he will go.

Rabbi Joseph Hewish left last Wednesday for Chicago. From there he will go to New York, where he will be married. After a short honeymoon he will return to Salt Lake with his bride.

The Rev. D. W. Crane will remain here until the middle of August. Mrs. Crane left last night for Los Angeles, where she will be joined by her husband before September.

The Rev. C. C. McIntyre of the Westminster Presbyterian church will spend his vacation with his family in one of the nearby canyons.

The Rev. Samuel R. Colladay, dean of St. Mark's Episcopal church, will take a vacation later on in the season. He has made no definite plans as to where it will be spent.

The Rev. Charles R. Neel of the Central Christian church is on a fishing trip in one of the canyons, but will return within a few days.

Among those who will spend the summer in Salt Lake are the Rev. R. L. Scanlan of St. Mary's cathedral, Rabbi Charles J. Freund of the Temple B'nai Israel, Rev. R. M. Craven of the Holy Trinity Episcopal church, Rev. F. W. Bunker of the Holy Trinity English Lutheran church and others.

HANS C. HANSEN BURIED.

Speakers Pay Eloquent Tribute to
Decedent's Character.

The funeral of Hans C. Hansen, the young architect, was held at 2 o'clock yesterday afternoon, from the family residence, 222 G Street. President Nephil L. Morris, Bishop George Romney and Bishop Carl E. Peterson of Ogden were of the brilliant life of the young architect. Solos were given by Charles Pike, assisted by a quartet consisting of Mrs. Campbell, B. A. Senare, Mrs. Millie Summerhays Kimball and Mrs. Eva Ald. Those acting as pall bearers were Charles H. Buehler, William F. Rosenberg, Mark G. Grovesbeck, William H. Hintz, Jr., Arthur Lewis and D. C. Brough. Interment was in the City cemetery.
